

Enjoying the Mill Pond at Langstone

## Tim Pike out and about in St Faith's ward

With a young family at school and nursery in Havant, Tim is always out and about in our area, addressing concerns and talking to residents. He works with many local groups, including as a trustee of Havant Scouts.

*"Havant is a great place to live in and to run a business and I know residents all want the best for their families and our environment. I'm confident we can work together to make our town even better during the next four years."*

Looking at flood defences at Langstone

At Havant Park, where improvements are planned

At Warblington Station, observing how a footbridge will improve conditions for people on foot

As the Council Lead for Coastal issues, Tim has worked with Council Officers to drive forward plans for improving the coastal defences at Langstone, securing Government grants wherever possible to reduce the burden on local taxpayers. The proposals have recently been discussed with residents and landowners.

*Tim remains passionate about supporting our communities - working closely with residents' associations to quickly resolve problems. He led the project to achieve the Stride Centre - the new community centre in Denvilles - which has quickly become popular with regular users and community bookings. The project to deliver a footbridge at Warblington Station is moving forwards - and Tim commits to seeing this completed.*

## Conservative Candidate, St Faith's Ward Havant Borough Council Elections on 2 May

Working hard for the Residents of St Faith's ward  **Conservatives**

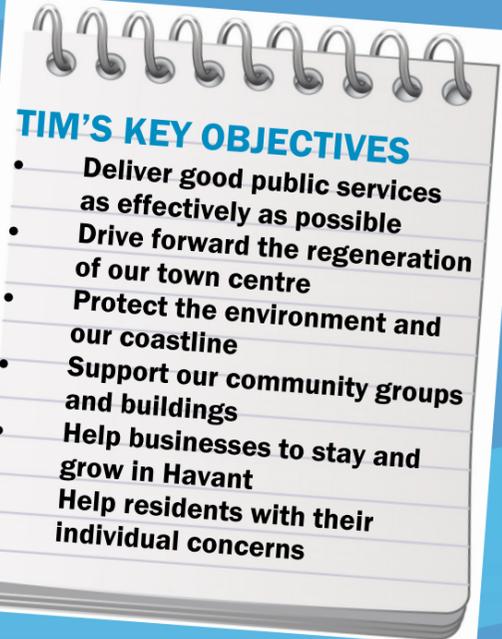

**Tim Pike** has proudly represented residents in St Faith's ward for the last four years and seeks your support in May 2019 to continue as your local Councillor. He has been actively working on the big issues affecting our area and working with individual residents to address their concerns.

*Since Tim was elected as your Borough Councillor, he has been involved in leading many of the big decisions taken by Havant Borough Council on your behalf. He now serves as Deputy Leader of the Council and the Portfolio Holder for Finance and Regeneration.*

He has implemented a new regeneration strategy which seeks to improve our town centre - bringing better shops and cafes, new homes and nicer public spaces, together with an improved Havant Park and station area. Residents will start to see work starting shortly.

*Tim has also had responsibility for the Council's finances, ensuring your money is spent effectively on our priorities - he expects the Council to be as careful as you and your family are with your money, or any business is. He has achieved more efficient Council services, which has allowed more spending to be allocated to improving our play parks, supporting young people leaving care and on implementing our regeneration plans.*

**"I really enjoy my role as your Councillor . I'm positive about Havant's future and that we can work together to create a place that's great to live, to work and to visit. The Council is now investing in better buildings and public spaces, and I seek your support to continue for another four years."**

In Havant park alongside Market Parade, which is part of the proposed regeneration plan
